# Dulux Acratex® Roof Restoration System

Your roof provides more than just shelter. It is an extension of your home and should be given the same love and care to match the inside's look and feel.

That's where we come in. Dulux AcraTex's Roof Restoration Service is an opportunity to refresh, revitalise and transform your roof to not only reflect your home, but you and your family too. Backed by the most trusted paints brand in Australia<sup>1</sup>, we provide a full restoration service.

To reinforce Dulux AcraTex's quality, we offer a 15 year warranty on product performance covering aspects like film integrity, peeling and cracking as well.<sup>2</sup>

Let us increase your street appeal and give you the home you deserve.

<sup>1</sup>As voted by Australians in the 2020 Readers Digest Most Trusted Survey.

<sup>2</sup>A 15 year material warranty is issued on product performance when the Dulux Acratex Roof Membrane coating system has been applied by a Dulux Acratex Approved Roofing Applicator. System warranties cover film integrity, peeling and cracking. Refer to website [acratex.com.au](http://acratex.com.au) or call Acratex customer service on 13 23 77 for terms and conditions.

# HOW THE SERVICE WORKS

When you choose Dulux AcraTex Roof Restoration Service, we look after the details so you don't have to. With a tailored experience to suit your needs, we aim to give you peace of mind. From our initial inspection to the completion of your home's roof, you can be assured we've got you covered. Our dedicated team of Approved Roofing Applicators and Project Managers take care of everything while you get on with life.

## 1. INSPECTION & QUOTE

We conduct a thorough inspection to understand the condition of your roof. Using our advanced technology, we visualise, map and inspect your roof. Our expert team then provide a comprehensive report on its condition as well as a detailed quotation for the required restoration service. From here, your work is done. Our team look after everything from this point forward to deliver your roof transformation, stress-free.

## 2. REPAIR & CLEAN

We'll replace and repair any tiles or fixings that are needed and continue to repoint if required. A high pressure wash follows, ensuring water is directed off the roof in an environmentally friendly manner. Your roof is also repointed with our Roof Pointing.

## 3. PRIME & SEAL

We seal your roof for maximum adhesion of the final roof membrane coats. Our specialty range of primers and sealers mean we have a solution to suit your specific roof conditions.

## 4. FINISHING COATS

We apply two coats of our improved Roof Membrane which delivers excellent colour durability for long life protection. Range available in popular Dulux and Colorbond® colours.

## 5. JOB COMPLETION

To complete the service, we make sure we've cleared up and packed down all our equipment and your space, to leave your home as we found it.

# GREYS

Taking inspiration from earthy stone hues can help your home blend in with the local surroundings. With a wide variety of shades, create a classic look that will stand the test of time.

## REDS

Traditional red roofing is an Australian iconic element. To create a traditional feel you can't go past these familiar earthy reds and terracottas for a timeless appeal. There are so many options when creating a colour scheme with a red roof. As these colours are earthy you can use natural greys, greiges, greens and stone colours.

# GREENS

As greens are drawn from natural surroundings, they are a perfect colour to use on the exterior of homes. Greens range from light grey green shades to darker olive tones. Greens are so versatile and work well with so many colours due to their earthy and muted undertones. Greens can provide an organic setting for a roof to camouflage in nature's bush canopy.
